

# Commissary Information

The commissary is a base of operations for all mobile food establishments. Each vehicle is required to operate from an approved commissary and report daily for all supplies, cleaning and servicing operations. Each commissary is required to be constructed and operated in compliance with the requirements of the Maricopa County Environmental Health Code.

Depending on the needs of the vehicle, commissaries may have different services available. In general, commissaries are used to carry out the following services:

- Fresh water supply
- Gray water disposal
- Ware washing facilities
- Food preparation
- Garbage disposal
- Food Storage
- Chemical storage
- Facilities for cleaning and storage of vending machines

In order to obtain a permit from this Department, a signed commissary agreement (see other side) is required for each unit at the time of initial permitting and at permit renewal. Be aware that each commissary agreement will be verified to ensure the facility is able to provide your mobile food establishment with the services needed.

In addition, the Maricopa County Environmental Health Code requires each permit holder to maintain a log of visits to the approved commissary. The log must be written in permanent, waterproof ink, and maintained within the unit at all times. Logs will be requested on a random basis.

The following is a list of commissaries that have been verified and are approved within Maricopa County. Before making any arrangements, please inquire about the type of services offered, hours of operation, and other pertinent information. This list is not inclusive and other facilities may be approved as a commissary if the services provided meet the needs of the food peddler, mobile food unit, or pushcart. Additional facilities will be evaluated on an individual basis.
