EXHIBIT B
SCOPE OF SERVICES

I. SCOPE OF SERVICES

As a long-time provider of training, technical assistance and support services to Head Start and Early Head Start programs across the United States, T/TAS is qualified to utilize a variety of service delivery mechanisms as part of its work with Maricopa County Head Start. Because of our extensive experience, as described in III. Statement of Qualifications, T/TAS is already well equipped with the capability to successfully utilize the various strategies described below.

A. Service Delivery

T/TAS proposes to use a variety of service delivery mechanisms to deliver training and technical assistance services to Maricopa County. The specific strategy selected for any work will be based on an assessment of the most appropriate, reasonable, and effective option that is mutually agreed upon between Maricopa County and T/TAS. Service delivery options include, but are not limited to, the following:

1. Phone consultation: T/TAS Specialists often use phone consultation to address specific questions regarding rules and regulations, to share information about upcoming initiatives, and to continue discussion that began in on-site T/TA situations. T/TAS has a toll-free number that can be used for this purpose. The time zone differences between the program and the locations of T/TAS Specialists will not be a barrier for this strategy, since Specialists are available at various points during the day and evening.

2. On-line training, technical assistance and consultation: T/TAS currently uses Adobe Connect as a vehicle to bring together our Specialists and persons in remote locations. Its features allow for ongoing discussion, display of Power Points and other materials, and active dialogue among participants. T/TAS will be pleased to set up these experiences as a service delivery option.

3. Large and small group training sessions: T/TAS Specialists have extensive experience providing training to groups ranging in size from 20-1,000 participants and within timeframes ranging from 1.5 hours to three days (see Section 3.14.5 below). Our staff specialists make extensive use of PowerPoint presentation material, small group exercises, and other training strategies. Our staff specialists have developed training materials that target specific component/service areas and program design and management/fiscal topics.

4. Keynote speeches: T/TAS staff members have provided keynote speeches to a wide array of groups, including Head Start/Early Head Start staff. These speeches are tailored for the specific audience, and often involve audience participation and audiovisual supplements.

5. Continuing Education Units (CEUs): Because of the linkage between T/TAS and Western Kentucky University (WKU), we are able to offer CEUs for training offered by our Specialists, following a formula that matches actual training hours with the CEU credit hours. WKU maintains a database of all CEUs earned through T/TAS, and a record of CEUs earned is maintained for each participant. This record is available to her/him upon request. The cost of obtaining CEUs is the responsibility of the Head Start program or its individual participants.

B. Training and Program Options

Maricopa County Head Start has identified some of the training that it might wish to consider, through the list provided in Section 2.1 of the Solicitation for TTA and support services. T/TAS has indicated in Table 1 below that we can provide T/TA in all but two of those areas.

However, before we recommend specific types of training and technical assistance, we would suggest that both T/TAS and the Head Start program review several documents that may provide clues about the most appropriate and important foci for this effort. Among these documents would be the program’s own Training Needs Assessment and current Training Plan. The contents of these two documents would convey a sense of the program’s initial thinking.
about supporting the professional growth of staff. In addition, the last two Federal Monitoring Reports should be considered, along with the program’s most recent Self-Assessments and any aggregation from internal monitoring reports. There may be valuable information contained in staff professional development plans (or at least the required teacher professional development plans), as well as lists of the program’s TTA efforts over the past five years.

The Specialists at T/TAS will remain available to systematically aggregate and analyze these reports to identify trends and issues, and to couple this work with consideration of current Office of Head Start (OHS) initiatives and trends (e.g., the use of child outcomes to inform program planning; the upcoming Monitoring 360 strategy; the introduction of a systematic approach to gathering and using family outcomes). After this work is completed, T/TAS would be positioned to offer Maricopa County its recommendations for a thorough and responsive TTA plan. See Table II for a listing of past Training Events and available topics.

C. Training Material

As noted above, T/TAS has developed materials for use in its training sessions, but we have gone a step further. We have organized those materials so they stand alone and can be purchased by our customers for use in their own programs. Those materials and their purchase prices can be found in Table I below.
