- 6. Explanation of the rule, including the department's reasons for initiating the rulemaking:**  
**Summary:**  
 The Maricopa County Air Quality Department (department) incorporated by reference various federal regulations and documents promulgated by the U.S. Environmental Protection Agency (EPA) and published in

the Federal Register. The rule revisions in this “Notice of Final Rulemaking” implemented federal requirements according to each federal program identified or applicable source type subject to these regulations. These revisions included incorporating by reference actions relating to New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP), Acid Rain and other parts of Title 40 of the Code of Federal Regulations (CFR). The rule revisions implemented federal requirements according to each federal program identified or applicable source type subject to these regulations. The action amended the incorporation by reference date from July 1, 2010, to July 1, 2011, in each of the rules to remain current with federal regulations. The adoption of the revisions to Maricopa County Air Pollution Control Regulations Rules 321, 360, 370, 371 and Appendix G was necessary prior to requesting the EPA’s delegation of authority to the department for the implementation and enforcement of the federal regulations and documents.

In addition, the amendments corrected typographical or other clerical errors; made minor grammatical changes to improve readability or clarity; modified the format, numbering, order, capitalization, punctuation, or syntax of certain text to increase standardization within and among rules; or made various other minor changes of a purely editorial nature. As these changes did not alter the sense, meaning, or effect of the rule, they are not described in detail here, but can be readily discerned in the “strikeout and underline” version of the rule contained in Item #16 of this notice.

Written finding by the Control Officer setting forth the reasons why the rule or ordinance making is necessary and does not alter the sense, meaning or effect of the federal or state rule or law from which it is derived.

This rulemaking was required to update the applicability dates in these rules. It incorporates subparts that have been passed by the federal government which are required to be implemented by the department. Rules 321, 360, 370, 371, and Appendix G do not alter the sense, meaning or effect of the state rules and federal regulations from which they are derived, as they incorporate language that is essentially the same as the state's applicable rules and the federal code of regulations.

**A.R.S. § 49-471.08(A)(3):**

Demonstration that fees established in the rule or ordinance do not exceed limits specified in § 49-112.

The department incorporated by reference the following federal regulations and documents promulgated by the EPA and published in the Federal Register: New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP), Acid Rain and other parts of Title 40 Code of Federal Regulations. These revisions should not have an economic impact on businesses in Maricopa County and should not impose additional costs on the regulated community, small businesses, political subdivisions, and members of the public beyond that already incurred by reason of federal or state rule or law. The costs of compliance with these rules have already occurred and were considered when the federal and state rule or law was proposed and adopted.

**11. Description of the changes between the proposed rule, including supplemental notices and final rule:**

No changes were made to the proposed rule.

**12. Summary of the comments made regarding the rulemaking and the department response:**
